

ENERGY MANAGEMENT POLICY

Kawan Food Berhad (KFB) manufactures, markets, and sells quality frozen foods with the mission to enrich lives through food, lead innovation, create value for our stakeholders and as a good corporate citizen continually contributes to economic, environmental, and social improvement through our activities in the local and international markets.

We are aware that our activities and day-to-day operations uses significant amounts of energy in order to provide quality and safe products for our customers. As such, we are committed to the responsible use of energy in order to minimise our negative impacts to the environment, reduce our GHG emissions, ensure cost-effective operations, and contribute to the pursuit of sustainability in society.

We are committed to:

- adopting national/global provisions and supporting national policies related to energy conservation.
- taking into account the environmental, economic, and social impacts of energy use in the design of our products, processes and manufacturing facilities.
- incorporating considerations for energy efficiency in our procurement and supplier selection processes.
- minimising the use of energy derived from fossil fuels and prioritising the use of renewable energy sources in our operations as far as practicable.
- adopting energy-efficient technologies and practices in order to reduce our overall energy usage.
- implementing energy management systems and other relevant energy related standards throughout our operations.
- implementing energy conservation measures, such as turning off lights and equipment when not in use, optimising production systems, and utilising natural lighting, as far as practicable.
- actively monitor, measure, and analyse our energy consumption in order to identify opportunities for improvement and efficiency.
- setting ambitious energy use targets to align with our commitment to reduce GHG emissions and minimise our contribution to climate change.
- communicating our energy management strategy including its progress to relevant internal and external stakeholders.
- engaging and educating our employees, the Board and other stakeholders on energy management best practices.
- continually improving our processes to address our impacts related to energy use.

This policy will be made available for all employees and public on our corporate website at www.kawanfood.com and will be communicated to all our existing and potential supply chain partners.

Training and awareness session(s) will be conducted to ensure this policy is fully understood and practised robustly.

KFB will review this Policy on a periodic basis and revise it accordingly to ensure adequacy, relevance and effectiveness of this Policy.
