

WATER POLICY

Kawan Food Berhad (KFB) manufactures, markets, and sells quality frozen foods with the mission to enrich lives through food, lead innovation, create value for our stakeholders and as a good corporate citizen continually contributes to economic, environmental, and social improvement through our activities in the local and international markets.

We are aware that our activities and day-to-day operations uses significant amounts of water to provide quality and safe products for our customers. This involves interacting with water resources through our consumption and releases into water bodies. As such, we are committed to address our impacts on the availability and quality of water resources, by implementing water-conservation and efficiency practices. This includes establishing necessary controls to protect water resources indefinitely.

We are committed to:

- adopting national/global provisions and supporting national policies related to water resources management.
- taking into account the environmental, economic, and social impacts of water use in the design of our products, processes and manufacturing facilities.
- adopting water-efficient and conservation technologies and practices in order to reduce our overall water usage.
- actively monitor, measure, and analyse our water consumption in order to identify opportunities for improvement.
- taking timely action to mitigate potential negative impacts to water availability and quality affecting people in areas where we operate.
- setting ambitious water use targets to align with our commitment to address our impacts to water availability and quality.
- communicating our water management strategy including its progress to relevant internal and external stakeholders.
- communicating relevant water management best practices to internal stakeholders to continually improve our water performance.

This policy will be made available for all employees and public on our corporate website at www.kawanfood.com and will be communicated to all our existing and potential supply chain partners.

Training and awareness session(s) will be conducted to ensure this policy is fully understood and practised robustly.

KFB will review this Policy on a periodic basis and revise it accordingly to ensure adequacy, relevance, and effectiveness of this Policy.
